

Dart Sails & Covers

Dinghy & Small Boat Covers

Anti-wick thread which swells up when wet to make the cover water proof or an option to upgrade of thread to 'Tenara', guaranteed for 15 years, almost impervious to UV degradation so perfect for use in high UV areas, acid rain and other pollutants, however 'Tenara' is not an anti-wick thread so it can leak in big downpours.

Custom manufactured for non-standard boats

Over-boom, flat cover, trailing cover or undercover covers available

Dart Sails and Covers can offer an over-boom, flat cover, trailing cover or undercover for most one design dinghies and we custom manufacture for non-standard boats.

Fabric Options available:

PVC Polyester, is the cheapest option and offers a good cover but it is not breathable. It is tough, UV treated, long lasting and waterproof.

Cotton/Polyester Is the classic cover of choice for most owners over the years, it is long lasting, breathable and very tough but it is susceptible to shrinkage.

Weathermax. Great for lightweight covers.

Choose this if you need a cover that packs up small yet is fully breathable and waterproof.

Hydralite Polyester. This is the very best cover fabric available, with no shrinkage. It has outstanding UV life and colour retention, it is very durable and the most water tight breathable fabric available. Covers from this material are supplied by one of our trade partners specialising in the manufacture of high quality dinghy covers.

Top Gun available in a wide range of colours is a robust polyester cover fabric with almost zero shrinkage or stretch is very stable with excellent UV and mildew resistance and is 100% waterproof perfect for bespoke flat boat covers.

Nylon Tough 7 oz coated nylon used for under covers to protect the hull from trailing – soft and easy to fit.
